SELF-EMPLOYED CONSULTANT

Today:

Susan Addington is a single parent living in Virginia. She is self-employed with an income of \$40,000 a year. Because her son has a serious chronic illness, she paid \$3,000 in out-of-pocket costs and \$5,000 in insurance premiums in just one year. Because she is self-employed, she was only able to deduct 25% of her \$5,000 premium or \$1,250 of these costs.

Reform:

	Policy Type	Premium	Family Share	Employer Share	Susan Pays (Per Yr)	Susan Pays (Per Mo)
Today	Single Parent	\$5,000	NA	NA	\$5,000	\$417
Reform	Single Parent	\$3,893	\$779	\$2,479	\$3,258	\$272

Scenarios Under Reform: 100% of the premium.
